Two possible positions for the cover

Heavy duty design Full aluminium enclosure protected by durable powder coating Grey \& Champagne!

## Product benefits

Innovative, reliable
\& unique design
Product orchitecture \& torque range odapted to customers' requirements 6 models from 30 to 500 nm Selection of the essential features to ensure a competitive but performing solution: actuator duty from On-Off to Moduloting, heavy duty enclosure protection, IP68, integrated control, wide ronge of output speeds... unaffected by vibrations. Fully new \& unique design with internal modularity for compact solution, e. 9 modular position sensor enables up to 1695 turns with the same product
Performance for multi-turn actuation
From 30 nm (adjustable to 12 nm ) to 500 nm (direct) and more with , georboxes
Wide range of speeds to oddress all Whes of applications
Self-locking ot oll speeds without
any additional component*
S4 Motor Service Duty on all models Suitable for modulating applications (BC Class III complying with En15714-2 Class C)

- Easy to install

Easy commissioning: set up of travel limitation system (new comblock) with a stondard screwdriver (similo F FIRST BC AQ range), only two standard tools required to install and set up the actuator on volve, wiring educed to the minimum for fost arge LCD
or user-friendly on LOGIC version or user-friendly commissioning and
ocal command. Easily orientable (4-way direction) in few clicks
Product suitable for rising stem thonks to odjustable torque sensor from 40 to 100\%

- Easy to maintain
> Declutch-free manual override for quick intervention on site Mechanical position indicator os on option on swith versions. check the BC APP: Bernard Controls new mobile application for setting, operating, troubleshooting and easy access to documentation

The main functions of integrated control with the new LOGIC control (v2)
Turn-key, time \& cost-saving solution > User-friendly \& intuitive
$>$ non-intrusive setting for enhonced sofety ond reliobility
Compatible with common fieldbus protocols: Modbus RTU, Profibus DPV1. stondard) to communicate with Bernard Controls' BC App

Large LCD display Easily orientable in few clicks on the BC APP or through local commands

## Range Overview

A new range of multi-turn electric actuators made up of 6 models with or without integrated controls

- ATEX-NEMA. SIL3 ATEX-NEMA, SIL3

## NUCLEAR RANGES

## Nuclear classified Actuators

- SON \& ST \& SN \&SD Nuclear qualified electric actuators +Full range of other Qualified Solutions: Quarter-turn, Multi-turn and Linear for inside \& outside containment applications; Failsafe actuators

## NEW GENERATION OF SMART CONTROLS

LOGIC (v2)

The main functions you expect from modern integrated controls

INTELLI+ ${ }^{\text {® }}$ (v3)
Advanced control solution for your critical applications!
